

MOREDON PRIMARY AND NURSERY SCHOOL

Your learning journey to new horizons.

Dear Parents/Carers

I have great pleasure in sharing with you the learning policy for Moredon Primary and Nursery School. This policy is represented by the picture above and will form the logo on our new school uniform.

The learning policy was developed with staff, parents and governors on a TD day in May. Everyone contributed to the ideals and principals around the policy and we hope that you can support the school in its new aims. The children will come to learn this policy by heart and be able to discuss in detail what each part of the picture represents. We are excited that our new learning policy is not a written document but part of the everyday fabric of our new school.

- The globe as a balloon represents the achievements and aspirations we hope to instil in our children as citizens of the world. It also represents the breadth we offer in our curriculum and the wide range of experiences we will give to enhance children's learning.
- The basket of the balloon represents the school. You are safe in the basket whilst being able to explore new ideas, concepts and experiences. The balloon is tethered to the word Moredon just as our school is tethered in the community. We want to celebrate Moredon as a community and develop learning in the community by making the school accessible.
- The flames represent the support your children receive in school. Imagine you are in a balloon. Sometimes you will need a great deal of heat to make a journey, to go higher, sometimes you don't need any heat at all and you cruise along at a speed suitable to your chosen journey. Sometimes you really need a short burst to get you somewhere. This level of support is always available in school through the teaching, the differentiated curriculum, teaching assistant support, intervention programmes, IEP's and gifted and talented work. The support needed will be tailored to meet the individual needs of the children just as the flames are used to continue the journey of a balloon.
- On the side of the balloon there are 3 sacks. These sacks represent the 3 main elements for successful learning. The heart is self esteem. If you believe in yourself and value your own talents, you are likely to succeed. The tick represents the children's willingness to learn. The question mark represents knowledge skills and understanding. As parents, children and teachers work together, the children's potential is released and the balloon continues higher on its journey.
- The 5 stars are symbolic of the Every Child Matters Agenda.
- Yellow – Enjoy and achieve all that you can be
- Green – Stay healthy and lead a healthy lifestyle.
- Red – Stay Safe
- Orange – Make a positive contribution now and in the future
- Blue – Understand the value of money and save for the future.

You will also notice that at the top of the letter, we have a new mission statement:
Your learning journey to new horizons.

We are working to develop a new curriculum that inspires and challenges the children and allows them to have a range of experiences, trips and visits. The mission statement shows clearly, our promise to the children that we will make learning interesting and challenging and it will make sense to them.

If you have any further questions or queries regarding our policy, please do not hesitate to get in touch with me.

Yours sincerely,

Lauren Connor
Head teacher
Moredon Primary and Nursery School.
